OUR HISTORY

GMR Group, a leading infrastructure company in India, with strong presence in Airports, Power, Highways, Railways and other Urban infrastructure, felt the need to have its own dedicated security organization, in the year 2005, to secure its assets. It was the time when the major assets of the Group were being built & the security provided by the outsourced security agencies was found to be woefully lacking. Hence, Raxa Security Services Ltd., was formed as a separate Group company in the year 2005.

The RAXA Academy, a premier Security Training institute, spread over a 100-acre campus, was established in 2007 to provide Best-in-Class security training. The credit for envisioning the need for such a training facility of global standards in the private sector truly goes to Shri G M Rao, our Group Chairman. He wanted to bring Professionalism in Private Security at a time when it was practically non-existent in the country.

Since 2011, besides serving the Group companies, RAXA has been offering its services to several leading Indian and multi-national companies in the corporate world, as well as some Government establishments. RAXA focuses on providing Integrated technology based Security solutions to premier clients.

Raxa has partnered with some well established as well as promising startups to provide several specialized and customized technical security and safety solutions.

With the formation of separate divisions for specialized services such as fire, aviation and event management, we are in a position to offer a wide range of services in these domains. We have also established a dedicated cyber division to provide even digital security in addition to physical security.

RAXA has today become synonymous with the word “Raksha” meaning ‘Protection’ and has achieved several distinctions in the short span of 15 years of its inception. We aim to cross many more milestones in our journey serving multifarious clients across India.

OUR VISION

To be a leader in the safety and security industry in thought and action

OUR MISSION

- To provide world class safety and security to Industrial and Business Establishments.
- To use the latest security technology for continually enhancing the standards of the security solutions that are provided to the customers and at the same time give value for money to the customers through such technical and integrated security solutions.
 - Stay committed to the highest standards of excellence. Maintain high ethical standards, honesty and integrity. Respect and encourage individual ability and creativity.

OUR ETHOS

RAXA takes pride in providing the highest level of service to our clients. We offer customized service with a personal touch. Customer satisfaction and concern for our employees are the two values we hold most high, supported by our deep sense of Integrity.

There is a lot of emphasis on inculcating the right values in our staff, in line with the Values and Beliefs of the GMR Group, namely:

Humility | Entrepreneurship | Teamwork & Relationships
Delivering the Promise | Learning and Inner Excellence | Social Responsibility
Respect for Individual

GUARDING

RAXA is positioned as a premier professional security organization, offering a wide range of security services. RAXA's strong workforce of well-trained security professionals' work round the clock towards the common objective of securing assets, property and life. With a sharp focus on security, we extend our services in close co-operation with customers, providing specialized and customized security.

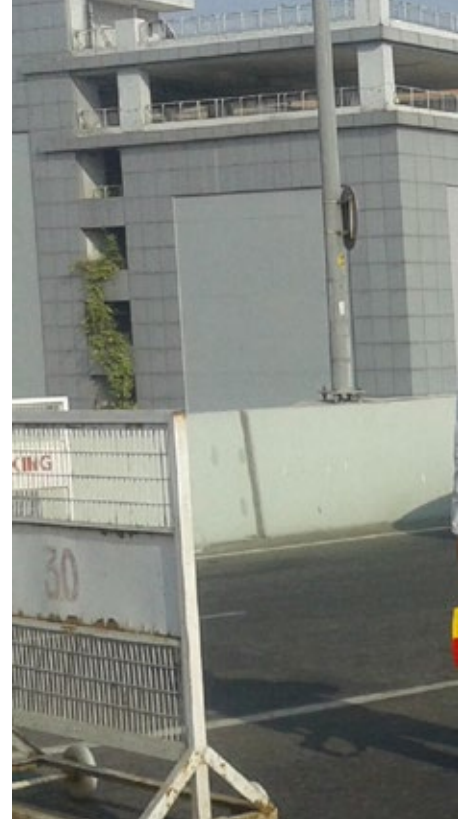

With a large footprint of security operations in India, we provide unmatched security solutions to our rich and diversified portfolio of clients, which includes Airports, Multinationals, Hotels, Corporates, Pharmaceutical Companies, Power Plants, Educational institutions, Manufacturing/Fabricating Industries.

RAXA's unique position in the industry is a reflection of its responsive attitude and standards of services, which are mainly based on its strong fundamental pillars:-

- Extremely stringent process of selection in accordance with RAXA's Quality Policy and service standards and rigorous training that goes much beyond statutory stipulations.
- Quality of supervision and management of the security

With a wealth of consolidated security experience that the company possesses, RAXA is able to provide a range of niche services to clients throughout India:

- a. Security allied services – Consultancy, Advisory & Security Programs
- b. Specialist services –
 - Event Security
 - Executive Protection
 - Canine Services
- c. Aviation Security – Baggage screening, Airport landside security & traffic management

TECHNICAL

RAXA is a high grade techno security solutions provider of specialized Electronic Security, Safety, Integrate Building Management systems and Fire Protection systems.

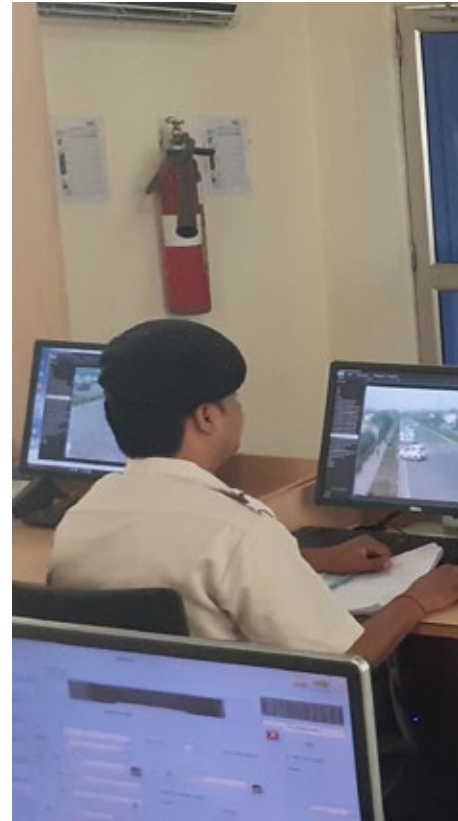

RAXA provides Technical consultancy to design cost effective security and safety systems for Industrial/Business establishments. The Design and implementation of Integrated Security Systems by RAXA would include a wide range of electronic security & technology systems:

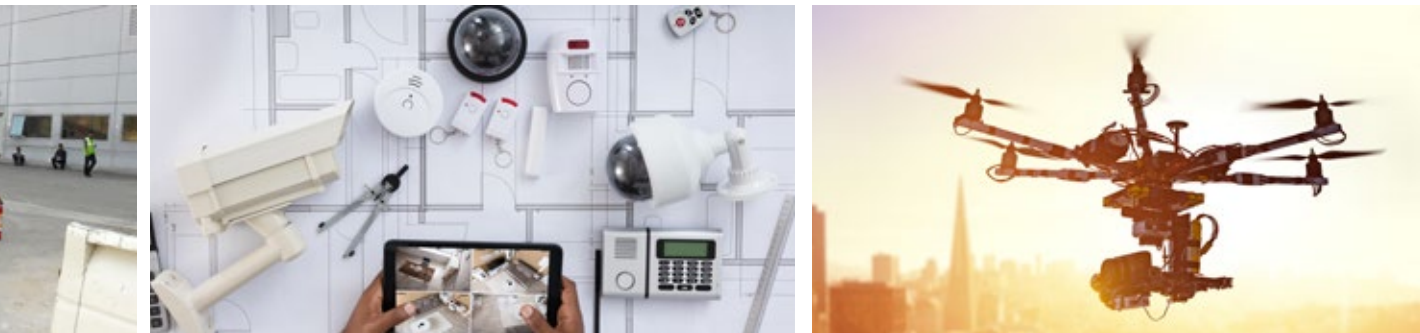

- Perimeter Intruder Detection system
- CCTV surveillance system
- Access control system
- Material Management system
- Drone and Anti Drone solutions
- Fire safety
- Anti-sabotage and Anti- terrorism equipment
- Visitor Management system
- Command, Control & Communications Centres (Central Security Operations Centre)

RAXA has undertaken several prestigious technical security projects whose job scope included some or all of the above systems.

RAXA prides itself on being able to provide prompt after-sales service at all its installation locations by monitoring them on a regular basis, ensuring customer satisfaction and optimal equipment efficiency.

As a matter of RAXA policy, the company ensures that the technical team is well equipped with the required tools & instruments and maintenance stock for supporting all its installations for complete Technical Support.

FIRE & SAFETY

Raxa has established a dedicated Fire Division to provide all fire related services in an integrated manner and it has the following capability related to Fire.

Operational Capability

All Raxa personnel are trained in fire & safety as part of their basic training.

Most of the officers in Raxa are drawn from CISF and Armed Forces. Several of them have specialized credentials in fire safety, having undergone long term courses in the subject.

Raxa is currently providing fire support services to all thermal power plants of the GMR Group. We have extended our services to Kia Motors, the South Korean automaker, having its manufacturing facility in Anantapur district of Andhra Pradesh and some other customers.

Raxa takes care of fire safety on the landside of all GMR Airports in India.

We have capability of conducting fire audits and various other consultancy services related to fire safety.

Technical Capability

The Technical Division of Raxa has the capability to design and install sophisticated fire system comprising both fire detection and fire suppression systems on a standalone basis or as part of the overall building management system.

Raxa can provide the entire gamut of fire safety equipment and take care of their maintenance.

Raxa develops solutions with optimum mix of manpower & technology also conducts Technical Safety audits

Training Capability

Raxa Academy offers higher level fire training courses on its own as well as in collaboration with GMR Aviation Academy, which is an entity of GMR Airports Ltd.

- Fire Safety
- Parking Management
- Trolley and Buggy Management
- Security related Training

TRAINING

Besides the Best-in-Class Training infrastructure at RAXA Academy near Ananthapur, RAXA has also established Regional Training Centres (RTC) across the country. The Academy as well as the RTCs are equipped to train the RAXA employees fully. The Training team, which is a judicious mix of seasoned professionals from diverse security backgrounds, ensures that the training provided is an appropriate mix of latest security techniques and tools.

It is not just the extent of land that differentiates RAXA Academy from other private security training institutes. The truly differentiating factors are its state-of-the-art infrastructure as well as the quality of training. The Private Security Agencies Regulation Act (PSARA) mandates only 160 hours training for security personnel. The training imparted by most security agencies is much less. However, in RAXA, the training is for a period of 5 weeks and the curriculum covers not just the routine security aspects and some physical training but in-depth knowledge of security, as required at the level of security guards, including handling of security gadgets. In addition to imparting rigorous physical training, which makes them fit to undertake strenuous security duties, the training faculty, headed by a Senior Army Officer, ensures that the Passing Out Parade of the RAXA batch equals the standard of any Police or Armed Forces training centre. More than 20,000 personnel have been trained at RAXA Academy since inception.

Raxa Academy has now transformed itself into a “Centre for Higher Learning in Safety and Security” and conducts several short-term thematic Courses on various aspects of security and safety. Raxa Academy is recognized as Centre of Excellence in Security Sector by MEPSC (Management and Entrepreneurship and Professional Skills Council).

RAXA Academy actively takes part in the Corporate Social Responsibility activities of the Group that are undertaken under the aegis of GMR Varalakshmi Foundation.

Specialized Training conducted at Raxa Academy

- Long term 'Security Executive' course for fresh graduates to take up positions as Security Officer at entry level.
- Short term thematic courses for Senior Security Professionals - Advanced Security Management Course, Security Course for Bank Officials, Risk Assessment and Management, Technical Security Solutions, Crisis Management etc.
- Customized courses for Security Managers, Supervisors & Guards.
- Fire Safety Courses of different durations.
- Corporate Executives Leadership and Outbound Training Programs.

CYBER SECURITY

While physical security continues to be important for all organizations, Cyber Security has become a major concern in the light of increasing threats to the Digitally connected assets of the organizations. According to a highly reliable report, Cyber Crimes in India caused ₹ 1.25 lakh crore loss last year. In order to provide the needed protection to our esteemed clients in the cyber world also, Raxa has now established a dedicated Cyber Security division to provide the following cyber services.

- Audit of IT Systems
- Cyber Threats Investigation
- Digital Forensics Services
- Cybercrime Threat Intelligence Reports
- Enterprise Security Awareness Training
- Mobile Cyber Risk Management
- Online Reputation Management

AWARDS & CERTIFICATIONS

ISO 9001:2015, ISO 18788:2015, ISO 29993:2017 and ISO 45001: 2018 certifications.

Centre of Excellence, recognition by MEPSC (Management and Entrepreneurship and Professional Skills Council)

Raxa is affiliated to Fire and Safety Forum (Accredited to American National Standard Institute, ANSI and is also a member of Quality Council of India and NITI Ayog).

Raxa is also a member of Fire and Security Association of India, Bangalore Chapter.
