

RAXA

Techno Security Solutions

(A GAR Group Company)

Innovating the *Future of Security*

FIRE DIVISION

A one-stop-shop for all Fire Safety requirements

About Raxa

Raxa Security Services Ltd., has been one of the pioneers in the Indian Private Security Industry in providing Integrated Security Services for the past 16 years. Raxa provides security and safety services to all GMR Group Companies which include Airports, Thermal Power Plants, SEZs and other urban infrastructure assets. Besides the GMR Group, Raxa has been providing integrated security solutions to several other premier clients such as Kia Motors, TCS, AstraZeneca, Bosch, Biocon, Zuari, Pathways School, GAR, Sudh Plus and others.

Raxa also provides security services to important events like the IPL matches, Airtel – Hyderabad and Tata Steel – Kolkata marathon runs, Events at Pragathi Maidan and several events at Delhi and Hyderabad Airport Arenas.

Raxa's Technical Division has very high capability in providing integrated technical security and fire safety solutions. It has designed and commissioned these solutions for government establishments, PSUs and other clients.

Raxa has full-fledged Fire Division with the following capabilities.

- (I) Installation and maintenance of Fire equipment
- (ii) Supply and Service of various type of Fire equipment
- (iii) Provide highly trained manpower
- (iv) Fire Consulting
- (v) Imparting Specialised Fire Training

OUR VISION

TO BE A LEADER IN THE SAFETY
AND SECURITY INDUSTRY IN
THOUGHT AND ACTION.

OUR MISSION

Technical

Design, Supply, Installation, Testing and Commissioning of Systems.

Fire Detection Systems

- Conventional and Microprocessor based Fire Detection & Alarm System
- Analogue Addressable and Intelligent Fire Alarm & Detection System
- Laser Based Very Early Smoke Detection System
- Linear Heat Sensing Cables – Analogue, Digital, OFC
- Ultraviolet and Infrared Detection System

Fire Suppression Systems

A. Chemical Powder Systems

- Dry Chemical Powder Systems
- Wet Chemical Systems

B. Water Based Fire Fighting Systems

- Industrial and Commercial Hydrant Systems
- Sprinkler Systems
- High Velocity Water Spray Systems
- Medium Velocity Spray Systems
- Water Curtain Systems
- LP & HP Mist System

C. Foam Based Fire Fighting Systems

- Foam Delivery Devices – Bund / Top / Rimseal Pourers

- Foam Induction Devices
- Monitors
- Foam Concentrates
- Floating Roof Tank Protection

D. Gas Based Automatic Fire Suppression Systems

- CO2 Total Flooding Systems (High Pressure & Low Pressure)
- Argonite Total Flooding Systems
- HFC – 227EA / Novec 1230 Total Flooding Systems
- Panel Local Flooding System

Raxa has associated with Fogtec to provide state-of-the-art fire protection equipments and services.

Raxa has partnered with KV Fire Chemicals, a leading firefighting Foam and Dry Chemical Powder manufacturer.

Operations

- All Raxa personnel are trained in fire & safety as part of their basic training.
- Most of the officers in Raxa are drawn from CISF and Armed Forces. Several of them have specialized credentials in fire safety, having undergone long term courses in the subject.
- Raxa is currently providing fire support services to all thermal power plants of the GMR Group. We have extended our services to Kia Motors, the South Korean automaker, having its manufacturing facility in Anantapur district of Andhra Pradesh and some other customers.
- Raxa takes care of fire safety on the landside of all GMR Airports in India.
- We have capability of conducting fire audits and providing various other consultancy services related to fire safety.

Consultancy

In the light of several unfortunate incidents in various parts of the country every year, proper designing of the Fire System is absolutely essential. Raxa Fire Consultancy provides end to end Fire Consultancy Services with its dedicated resources and deeper level of expertise

Training

We conduct specialized Fire Training Courses at Raxa Academy and also at client locations. The following are the courses offered:

S. No.	Course	Duration
1	Corporate Fire Rescue & Evacuation Program	01 day
2	Corporate First – Aid Programs	01 day
3	Practical Fire Fighting Drills (at GMR Warora Energy Ltd.)	15 days

Raxa runs IOSH accredited programme of Managing Safely

Raxa Academy

Raxa has a State-of-the-Art Academy, spread over 100 acres of land located on Bengaluru – Hyderabad National Highway (NH-44), at a distance of about 80 KM from Bengaluru International Airport.

The Academy has faculty/trainers drawn from various forces like Army, CISF and Paramilitary and is headed by a highly competent ex-armed forces officer having rich experience in training. Besides a 45-day basic security guard training, Raxa Academy conducts several other specialized Safety & Security Training courses.

Raxa Academy has now transformed itself into a “Centre for Higher Learning in Security & Safety” and conducts several short term thematic courses on various aspects of Security & Safety. It also conducts specialized long term courses on Fire Safety & Security.

Accreditations & Affiliations

ISO 18788:2015: Raxa has been certified for ISO 18788:2015, the standard for Security Operation Management System, which was enacted only in 2015. Raxa is probably the first organization in India and definitely one among the few, not only in India but world over, to get this certification.

ISO 9001:2015: Raxa upgraded its quality Certification from ISO 9001:2008 to ISO 9001:2015

ISO 29993:2017: Raxa Academy has been certified for ISO 29993:2017, the standard for learning services outside formal education.

Raxa is affiliated to Fire and Safety Forum (Accredited to American National Standard Institute, ANSI and is also a member of Quality Council of India and NITI Aayog).

Raxa Academy is the recipient of the following awards from SSSDC – Security Sector Skill Development Council:

- Outstanding Performance in conduct of Training
- Model Training Centre
- Best Training Centre (South)

Raxa is also a member of Fire and Security Association of India, Bangalore Chapter.
